Markpad release QA

Continuous formatting

Paragraph with **bold**, *italic*, ~~strikethrough~~ and `inline code`.

> Quoted text with a link and an inert image label:

- one
- two
- three

```
const x = 1;
const y = 2;
```

Header A	Header B
A	B
C	D

---

raw html stays protected

Longer content for pagination

Lorem ipsum dolor sit amet, consectetur adipiscing elit. Integer euismod, lorem at vulputate facilisis, lacus urna tincidunt justo, vitae posuere nulla quam at nibh. Suspendisse potenti.

1. Ordered item
2. Second ordered item
3. Third ordered item

Sed do eiusmod tempor incididunt ut labore

et dolore magna aliqua. Ut enim ad minim veniam, quis nostrud exercitation ullamco laboris nisi ut aliquip ex ea commodo consequat.

Another section

- A list with a longer line so the page layout has more than one block.
- Another item with **emphasis** and `code`.
- A final item.

> A second blockquote with multiple lines.
> It should remain visually distinct in both WYSIWYG modes.

Column one	Column two	Column three
left	center	right
more text	more text	more text
end	end	end

The final paragraph is deliberately long enough to exercise page placement, line wrapping, and the status bar page count in the paginated view. It also serves as a fixture for comparing the page engine output with the generated PDF in the release checklist.
